5. **SCOPE OF WORK**

The Scope of Work, as may be modified through negotiation and/or by written addendum issued by the City, will be made a part of the Agreement.

The Scope of Work is expected to be completed within six months.

Background:

The City of Lake Forest is currently constructing a Sports Park on approximately 86 acres in the northeastern portion of the City, at the intersection of Portola Parkway and Rancho Parkway (28000 Rancho Parkway, Lake Forest, CA 92630). An Environmental Impact Report (EIR) was certified for the project on April 19, 2011 (SCH#2009061020). For additional information, visit the City's website at www.lakeforestca.gov/sportsparkeir.

Due to the paleontological sensitivity of the area, seven mitigation measures are included within the Environmental Impact Report (EIR) and adopted Mitigation Monitoring Program for the Sports Park Project. The mitigation measures were determined to reduce impacts to paleontological resources to a less than significant level and included the following:

Paleo-1: Conduct Preconstruction Survey, Salvage, and Protection in all Paleontologically Sensitive Areas. Before site preparation (including vegetation clearing) and project earthwork begin, the City will retain an Orange County–certified professional paleontologist to conduct a surface survey and salvage operation in all parts of the project site where paleontologically sensitive materials are exposed at the surface. The goal of the operation will be to ensure that exposed paleontological materials are recovered and properly prepared and curated, or protected from damage using exclusion fencing or other appropriate means. Protection measures will be designed and installed in consultation with the City and the project engineering consultant to ensure that it is appropriate

and effective but does not unduly impede construction activities. The work will be conducted in conformance with the Orange County guidelines as defined in Eisentraut and Cooper (2002) and meet the requirements for surface prospecting and surface collection.

Paleo-2: Educate Construction Personnel in Recognizing Fossil Material.

The City will ensure that all construction personnel receive training provided by an Orange County–certified professional paleontologist experienced in teaching non-specialists to ensure that they can recognize fossil materials in the event any are discovered during construction.

Paleo-3: Retain a Qualified Professional Paleontologist to Monitor Ground-Disturbing Activities.

Prior to issuance of a grading permit, a qualified paleontologist shall be retained by the City to provide professional paleontological services. Specifically, during grading activities, the qualified paleontologist shall conduct onsite paleontological monitoring for the project site. Monitoring shall include inspection of exposed surfaces and microscopic examination of matrix to determine if fossils are present. The monitor shall have authority to divert grading away from exposed fossils temporarily in order to recover the fossil specimens. Cooperation and assistance from onsite personnel will greatly assist timely resumption of work in the area of the fossil discovery.

Paleo-4: Stop Work if Fossil Remains Are Encountered During Construction; Conduct Treatment as Appropriate.

If fossil remains are discovered during project-related activities, activities in the vicinity of the find will stop immediately until a qualified professional paleontologist can assess the nature and importance of the find and a qualified professional paleontologist can recommend appropriate treatment. Treatment may include preparation and recovery of fossil materials so that they can be housed in an appropriate museum or university collection and may also include preparation of a report for publication describing the finds. The City will be responsible for ensuring that recommendations regarding treatment and reporting are implemented. The work will be conducted in conformance with the Orange County guidelines as defined in Eisentraut and Cooper (2002) and meet the requirements for recovery, salvage, laboratory preparation, preparation to the point of taxonomic identification, transferral, and preparation and submittal.

Paleo-5: Prepare Monthly Progress Reports. The qualified paleontologists retained shall prepare monthly progress reports to be filed with the City.

Paleo-6: Prepare, Identify and Catalog Recovered Fossils. Fossils recovered shall be prepared, identified, and catalogued before donation to the accredited repository designated by the City of Lake Forest.

Paleo-7: Prepare Final Paleontological Monitoring Report. The retained qualified paleontologist shall prepare a final report to be filed with the City. The

report shall include a list of specimens recovered, documentation of each locality, interpretation of fossils recovered and shall include all specialists' reports as appendices.

The purpose of this RFP is to procure a consultant to provide the necessary services to comply with mitigation measures Paleo-6 and Paleo-7.

Measures Paleo-1 through Paleo-5 were completed during the rough grading of the Sports Park site. The construction monitoring effort yielded numerous fossils as follows:

- 98 fossil site localities totaling more than 150 individual bones and teeth
- 131 fossil specimens consisting of:
 - 100+ specimens contained in 98 plaster and burlap field jackets ranging in weight from three to >300 lbs
 - 17 specimens in matrix and variously wrapped in tissue and/or housed in boxes
 - 15 specimens free of matrix

A summary report of the monitoring effort has been prepared and will be a large component of the final paleontological monitoring report required as part of mitigation measures Paleo-7.

Work to be Performed by Consultant:

Transportation of fossil collection: The fossil collection is currently being stored in Poway, California. The consultant shall facilitate transfer of the collection to the facility which will be used for laboratory processing and identification.

Laboratory processing and identification of fossils: Mitigation measure Paleo-6 requires that all “fossils recovered shall be prepared, identified, and catalogued before donation to the accredited repository designated by the City of Lake Forest.” This task will involve the extraction of each specimen from the adhering matrix and/or plaster jackets, stabilization of the fossils to prevent further deterioration, and preparation of the stabilized fossils for transfer to an accredited repository. Preparation level will be based on the requirements of the selected repository as agreed to in advance by the City of Lake Forest. Specimens will be analyzed and identified to the lowest taxonomic level possible.

Final Report: the final report shall include all of the requirements of mitigation measure Paleo-7 and shall include a list of specimens recovered, documentation of each locality, interpretation of fossils recovered, and may include specialists reports as appendices. Information regarding construction monitoring and the in-field collection of fossils was prepared by the monitoring paleontologist and will be provided for this effort.

Transfer to Repository selected by the City: With assistance from the selected consultant, the City will identify the designated repository for this collection. The selected consultant will work with the City to finalize the selection of the appropriate accredited repository. Following selection, the consultant will facilitate the transfer of the collection to the selected repository.

6. DATA TO BE SUBMITTED WITH COST PROPOSALS

A separate, sealed Cost Proposal shall be submitted with the Project Proposal. The separate, sealed envelope shall be marked "Cost Proposal - Fossil Processing and Treatment for the Lake Forest Sports Park Project." The successful Proposer must submit an electronic copy of the cost proposal in MS Word, Excel or other format acceptable to the City in addition to the paper copy upon request.

7. GENERAL REQUIREMENTS

H. Confidential Information

The City shall refrain from releasing Proposer's proprietary information ("Proprietary Information") unless the City's legal counsel determines that the release of the Proprietary Information is required by the California Public Records Act or other applicable state or federal law, or order of a court of competent jurisdiction, in which case the City shall notify Proposer of its intention to release Proprietary Information. Proposer shall have five (5) working days after receipt of the Release Notice to give City written notice of Proposer's objection to the City's release of Proprietary Information. Proposer shall indemnify, defend and hold harmless the City, and its officers, directors, employees, and agents from and against all liability, loss, cost or expense (including attorney's fees) arising out of a legal action brought to compel the release of Proprietary Information. City shall not release the Proprietary Information after receipt of the Objection Notice unless either: (1) Proposer fails to fully indemnify, defend (with City's choice of legal counsel), and hold City harmless from any legal action brought to compel such release; and/or (2) a final and non-appealable order by a court of competent jurisdiction requires that City release such information.

INSURANCE REQUIREMENTS

In addition, Consultant shall not allow any subconsultant to commence work on any subcontract until it has provided evidence satisfactory to the City that the subconsultant has secured all insurance required under this section.

If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

(A) Commercial General Liability: Commercial General Liability Insurance which affords coverage at least as broad as Insurance Services Office "occurrence" form CG 0001, or the exact equivalent, and shall be no less than \$1,000,000 per occurrence and no less than \$2,000,000 in the general aggregate. either of the following: (1) a Personal Automobile Liability policy for the Consultant's own vehicle stipulating "Automobile Liability Insurance with a limit of not less than \$1,000,000 each accident"; or (2) a non-owned auto endorsement to the Commercial General Liability policy if Consultant uses vehicles of others (e.g., vehicles of employees). **ALWAYS DELETE THIS SECTION IF NOT USED.***]**

(C) Workers' Compensation: Workers' Compensation Insurance, as required by the State of California and Employer's Liability Insurance with a limit of not less than \$1,000,000 per accident for bodily injury and disease.

(D) Professional Liability: Professional Liability insurance with minimum limits of \$1,000,000. Covered professional services shall specifically include all work to be performed under the Agreement and delete any exclusions that may potentially affect the work to be performed (for example, any exclusions relating to lead, asbestos, pollution, testing, underground storage tanks, laboratory analysis, soil work, etc.). If coverage is written on a claims-made basis, the retroactive date shall precede the effective date of the initial Agreement and continuous coverage will be maintained or an extended reporting period will be exercised for a period of at least three (3) years from termination or expiration of this Agreement.

[OPTIONAL: include the following provision if there is a pollution liability exposure; otherwise, always delete.]

(E) Pollution Liability:

Pollution Liability Insurance covering all of the consultant's operations to include onsite and offsite coverage for bodily injury (including death and mental anguish), property damage, defense costs and cleanup costs with minimum limits of \$5 million per loss and \$10 million total all losses. The policy shall contain no endorsements or provisions limiting contractual liability or coverage for cross liability of claims or suits by one insured against another.

If coverage is written on a claims-made basis, the retroactive date shall precede the effective date of the initial Agreement and continuous coverage will be maintained or an extended reporting period will be exercised for a period of at least three (3) years from termination or expiration of this Agreement. **[ALWAYS DELETE IF NOT USED]**

1.1.3 Endorsements. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for approval.

(A) The policy or policies of insurance required by Section 3.2.10.2(A), Commercial General Liability **[INSERT "and 3.2.10.2(E), Pollution Liability"; OTHERWISE, ALWAYS DELETE]**, shall be endorsed to provide the following:

- (1) Additional Insured: The City, its officials, officers, employees, agents, and volunteers shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement.

Additional Insured Endorsements shall not (1) be restricted to "ongoing operations"; (2) exclude "contractual liability"; (3) restrict coverage to "sole" liability of Consultant; or (4) contain any other exclusions contrary to the Agreement.

- (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(B) The policy or policies of insurance required by Section 3.2.10.2(B) Automobile Liability, and Section 3.2.10.2(D) Professional Liability, shall be endorsed to provide the following:

- (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(C) The policy or policies of insurance required by Section 3.2.10.2(C), Workers' Compensation, shall be endorsed to provide the following:

- (1) Waiver of Subrogation: A waiver of subrogation stating that the insurer waives all rights of subrogation against the indemnified parties.
- (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

1.1.4 Primary and Non-Contributing Insurance. All insurance coverages shall be primary and any other insurance, deductible, or self-insurance maintained by the indemnified parties shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

1.1.5 Waiver of Subrogation. All required insurance coverages shall contain or be endorsed to waive subrogation against the City, its officials, officers, employees, agents, and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

1.1.6 Deductible. Any deductible or self-insured retention must be approved in writing by the City and shall protect the indemnified parties in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

1.1.7 Evidence of Insurance. The Consultant, concurrently with the execution of the Agreement, and as a condition precedent to the effectiveness thereof, shall deliver either certified copies of the required policies, or original certificates and endorsements on forms approved by the City. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15 days) prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced, Consultant shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required

insurance has been reinstated or has been provided through another insurance company or companies.

1.1.8 Failure to Maintain Coverage. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, City may cancel this Agreement.

1.1.9 Acceptability of Insurers. Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and authorized to transact business of insurance in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

1.1.10 Enforcement of Contract Provisions (non estoppel). Consultant acknowledges and agrees that actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposed no additional obligation on the City nor does it waive any rights hereunder.

1.1.11 Requirements Not Limiting. Requirement of specific coverage or limits contained in this section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance.

1.1.12 Insurance for Subconsultants. All Subconsultants shall be included as additional insureds under the Consultant's policies, or the Consultant shall be responsible for causing Subconsultants to purchase the appropriate insurance in compliance with the terms of these Insurance Requirements, including adding the City as an Additional Insured to the Subconsultant's policies. APPENDIX D

EVALUATION PROCEDURES

A. Selection Committee

Proposals submitted will be evaluated by a Selection Committee, appointed by the City Manager.

B. Review of Proposals

The Selection Committee will use a point formula during the review process to individually score Project Proposals, as outlined in Section C1 below, "Project Proposal Evaluation Criteria." The Selection Committee will then be convened to review and discuss these evaluations and combine the individual scores to arrive at an average composite Project Proposal score for each firm. Firms that do not meet "Mandatory Elements" listed in Section C1 below will be eliminated from further consideration.

After the composite Project Proposal score for each firm has been established based upon the "Qualitative Evaluation" criteria listed in Section C2, the Selection Committee may request oral presentations from a subset of those firms with a minimum score of 70 points. Based upon score rankings, the six (6) highest ranking firms may be interviewed. The Selection Committee may also schedule a site visit, if applicable. The sealed Cost Proposal of firms receiving a minimum score of 70 points on the qualitative review will be opened to ensure that the Cost Proposal is reasonable. A summary of all Project Proposals, qualifying on the basis of the qualitative review and interview, will be submitted, along with a summary of their respective Cost Proposals, to the City Council for final determination.

C. Project Proposal Evaluation Criteria

Proposals will be evaluated using three (3) sets of criteria. Firms meeting the mandatory elements will have their proposals evaluated and scored. The following represent the

principal selection criteria which will be considered during the evaluation process.

1. Mandatory Elements

- a. The firm is independent and properly licensed to practice in California.
- b. The firm has no conflict of interest with regard to any other work performed by the firm for the City.
- c. The firm adheres to the instructions in this RFP on preparing and submitting the proposal.
- d. The firm included a Letter of Transmittal in the Project Proposal.

2. Qualitative Evaluation (Maximum Points = 100)

In order to be considered the proposer must achieve at least 70 points. (Points will be assigned by the Department Director or Coordinator.)

- a. Expertise and Experience (40 points)
 - i. The firm's past experience and performance on comparable private/government engagements.
 - ii. The quality of the firm's professional personnel to be assigned to the engagement and the quality of the firm's management support personnel to be available for technical consultation.
 - iii. References relative to personnel assigned to this project.
 - iv. Understanding of work to be done.
 - v. Firm's statement on why it believes itself to be best qualified.

- b. Scope of Work (30 points)
 - i. Response to all items.
 - ii. Additional information.
- c. Allocation of Resources (30 points)
 - i. Appropriateness of services to the requirements of the City.
 - ii. Distinguishing features, skills and/or services.

D. Oral Presentations/Interviews

During the evaluation process, the Selection Committee may request oral presentations from a subset of those firms with a minimum score of 70 points. Oral presentations will provide firms with an opportunity to answer any questions the Selection Committee may have on a firm's Project Proposal.

The maximum points assigned to interviews shall be 100 points, the same number as the qualitative proposal. The equal point spread between the qualitative proposal and the interview is intended to balance a firm's written representation with their in-person representation of both personnel and end products. In addition, the interview process is a valuable tool to assess the communication skills and professional demeanor of proposed project personnel. The interview score is arrived at independently from the qualitative proposal score and the two may differ significantly. The interview portion allows staff greater flexibility to choose a qualified firm with strong communication skills and technical expertise.

E. Cost Proposal Evaluation

The Cost Proposal is opened for each firm who has received an average score of at least 70 points after the qualitative review and the oral presentation. The Cost Proposal of the top ranked firm is evaluated to determine if it is reasonable. The primary tests of reasonableness are comparison to the City's estimated project cost and the City's project budget. Additional

factors include prior experience, comparative costs in neighboring or other relevant communities, professional judgment and comparison to the costs submitted by qualified vendors for the proposed project.

F. Final Selection

The Selection Committee will recommend a firm for selection to the Department Director named in Section 1 of the RFP. The Agreement must be fully executed by the firm prior to Department Director recommendation for contract award to the City Council. The City, through the Department Director, reserves the right to negotiate the price, terms and scope of work with the successful proposer prior to making a recommendation to the City Council.
